Professional Profile

Charlie has over 5 years' experience in the transport planning industry and has successfully managed over one hundred traffic survey projects. This has enabled him to develop a thorough understanding of all aspects of traffic surveys, detailed data analysis, project management and data interpretation.

Since joining PeopleTrans in 2016, Charlie has primarily worked on the easing Sydney's congestion program where he has assessed and developed strategies to improve the operation of the State Road network across Greater Metropolitan Sydney. He has also been involved in transport impact assessment projects for the public & private sectors. Charlie is enthusiastic about maximising the efficiency of intersections and road corridors and is experienced in the use of Sidra Intersection 7.

Charlie has an MEM and MBA from the University of Technology Sydney, which has provided him with essential project management & financial management capabilities.

A selection of projects undertaken by Charlie Seventekin are provided below.
